Dennis Schröter:

Timed practice was good, I was 4th for most of the time until Kornel passed me. My first race started ok as well, I was in 12th position or so and had a group of riders in front of me who weren't any faster. Halfway through the race I made a mistake and crashed pretty hard. My knee is very sore now but I have to wait for the results from my doctors before I can tell how bad it really is.

Lars Oldekamp:

I wasn't too concerned about my qualification, because I liked the new track-layout and was looking forward to the races. Unfortunately both my starts were bad so I really had to push hard the first couple of laps to get to the front group. In race 1 I managed to finish 2nd, race 2 ended in 3rd. I can't be too disappointed with my riding, but everything's open for the championship now, as we going into the last race tied in the points now.

Michael Kaussen:

I felt really good as long the track was wet but in timed practice it dried out quickly and I struggled to get a good lap together. So I had to ride the LCQ which I won. I suffered from bad starts in both races so and passing was difficult as almost everyone was going the same speed, so I only managed to score one point.
