Dennis Schröter:

We came here Friday already as I wanted to make the most out of the 2 additional practice sessions. I struggled a bit in the beginning, but after a few small changes on the suspension I felt all right in second practice. After finishing 2nd in qualifying I was quite confident for the races.

With the track being really one-lined, the starts were really important. My 1st start was ok and I was in 3rd for quite a while, but didn't really have enough confidence in the corners so I lost two positions to Filip and Dennis. My 2nd start was not as good and I ended up 6th for 5th overall. I had hoped for a podium result, so I can't be happy with 5th, but I'm not too disappointed.

Michael Kaussen:

There isn't much to say about my weekend: My goals were a top ten qualifying in points in both races and I was quite far off from reaching them. My first start was really bad and the dust made it really difficult in the first couple of laps. I made up a few positions and ended up 24th. The 2nd start was a little better, but unfortunately my riding wasn't. I never found my rhythm and dropped all the way back to 27th.
